Event Proposal

Event Overview
A Human Book will be held at the library. During the event patrons will be able to "borrow" human books to have an informal conversation. The event is an opportunity for individuals to connect with people they would not normally have the occasion to speak to within their community, to better understand the life experiences of others and to challenge their own assumptions, prejudices and stereotypes.

The Human Book participating at the event will be volunteers who have self-identified as a "role" based on their race, age, gender, religion, sexual orientation, economic status, ability/disability, or by a particular life experience. For example, "living with HIV". It is important that Human Books be individuals who can communicate clearly and feel comfortable sharing their experiences with others.

This event can help to increase the visibility of the library, strengthen library partnerships with other organizations in the community, and help the library become a community leader in addressing diversity issues.

Organizational and promotional support is provided by the Ontario Library Association's "Check Out a Human Book @ Your Library" online tool kit.

Background Information
The Human Book concept came from a book review discussion at the Living Library. It was endorsed by a Boston non-profit organization, organized since 2004, in an effort to educate readers based on discrimination. The success of the concept has led to endorsement by the Toronto Human Events, the Council of Booksellers and the American Department of Management and Consulting. Human Books events have been held in countries in Mexico and Boston, Japan, New Zealand, Australia, and the United States. In Canada, Human Book events have been held at McGill Public Library, the University of Toronto, and at several locations between Toronto, St. E. and Montreal about the origins of the human library and to spread the word a website at www.humanlibrary.org and <http://humanbooks.org/>.

Goals & Objectives of Event
Goal #1: To increase dialogue, reduce prejudices, and encourage understanding of one another among diverse members of our community.

Objective 1.1: To provide an opportunity for members of the community to share their life experiences with others in a safe, relaxed, casual, and informal setting.

Goal #2: To strengthen library relationships with other organizations in the community.

Objective 2.1: To collaborate with organizations that represent or serve different groups in the community in a library event.

Goal #3: To increase the visibility of the library in the community.

Objective 3.1: To share new services with the library.

Objective 3.2: To engage human beings in a library event.

Objective 3.3: To collaborate with community service organizations.

Goal #4: To help the library become a community leader in addressing diversity issues.

Objective 4.1: To engage diverse participants in a library event.

Objective 4.2: To bring together different groups in your community.

Who Attends the Event?

This event would be held for members of the community, both current library patrons and community members who have never been to the library before.

Method of Achieving Goals and Objectives

The method for achieving Goals and Objectives will be:

• Survey current library patrons for Human Book suggestions via our website or a suggestion box at library service desks.

• Recruit volunteers to act as Human Books. Ask organizations that represent or serve different groups if they could recommend volunteers to act as Human Books.

• Advertise to a wide audience of potential Readers of these Human Books. Ask about organizations if they would help us promote the Human Library event to their members/clients. Encourage staff members to participate as Readers in an effort to know our patrons better.

• Hold a Human Library event at the Central Library during which Human Books and Readers can have an informal conversation in the welcoming, safe library environment.

• Survey individuals and organizations that have participated in the above ideas for feedback.

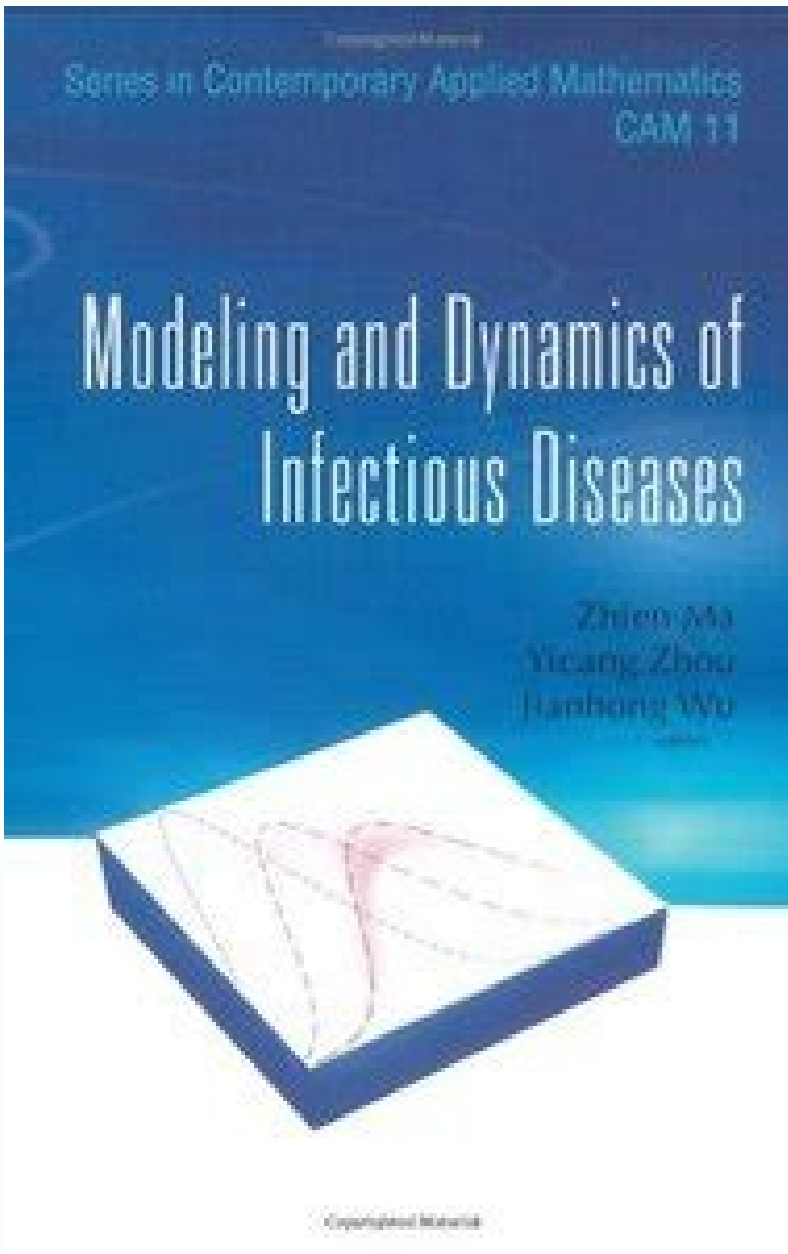

• Staff training on event.

• The event will require the following staff:

• Event coordinator: One or two people who can coordinate the many aspects of the event according to the method listed above. The person/people would need to be available during the event to oversee Human Books, other volunteers and staff.

• Event assistants: One or two people who can register participants on the day of the event and handle various duties that may come up on the day. The person/people will be a volunteer or a paid employee.

• Security: Security will need to be informed about the event though it is unlikely that there will be any security issues.
